

Hands-On, Virtual & Engaging Training

Professional Development in Early Education
with Anna Reyner, MA www.CreativePlayLA.com

Teacher Testimonials!

from recent virtual workshops

1. Hi Anna! My name is Ashley - I had the opportunity to participate in your art therapy workshop today. This is the best in service training I've ever had. It was interactive and relaxing. Usually I have some anxiety especially because of participation and breakout rooms, but I didn't have any anxiety in this training, AT ALL. It was relaxing and calming. I absolutely loved everything and it wasn't hard to participate. Thank you so much for sharing your knowledge with us I'm so excited to try these activities with my students!

2. Hi Anna, it's Marisol from Escondido Cal-Safe. I'm taking your art training right now. I love your training. I'm learning so much I know exactly what to teach my children here at the center and also now I have the knowledge to talk about this to my coworkers.

3. Hello, my name is Neri. This training is needed so much after two years of COVID. I love the amount of hands on activities we got to do. I love that we used materials that are easily available and affordable for us all. I have really enjoyed this training and it has been very helpful.

4. Hi Anna, I enjoyed the art training it is one of my favorites subjects because I can express myself. I work with toddlers and many of them love to paint with watercolors, paint, markers, dots, crayons, anything that is bright and colorful. I had a toddler that his favorite color was "red"! I think he was thinking about candies. Also, I liked a lot the music you played while we were drawing and painting, I will do that now with my children. Thank you for the inspiration.
